I received the message mentioned from Captain Brush, I received a message from Lieutenant Lowden of Company C of Carbondale stating that he would leave on a special train' for Carterville at 4 o'clock this afternoon. Later I received a measure from Captain Brush stating that later reports showed that seven of his men were killed and two injured and that a large armed mob of men was between Carterville and his mine and that one company was not sufficient.

'The above is all the information I have up to this time on the subject, from which It would seem that these negro miners were waiting at the depot for the train, probably expecting to leave the place temporarily or finally. While I have no information as to whom or by whom the trouble was precipitated, it seems to be from the brief facts above reported and the further fact | Telegram.)-Already the streets of Hastings that no one was killed except the negroes, was a prearranged, preconcerted, premeditated murder. AMERICAN ASSOCIATION OF BALL CLUBS

St. Louis, Milwankee, Detroit, Chieago, Baltimore, New York, Philadelphin and Washington to Comprise the Circuit.

CHICAGO, Sept. 17 .- A new base ball league, whose circuit will include cities in both the National and Western leagues and which will be known as the American Association of Base Ball Clubs, was formed today at a meeting here of base ball men charge of the flower parade. The queen and lovers of the national game. The circle the carnival will be Mrs. John Heasty, cuit, as decided on today, will include the following cities: St. Louis, Milwaukee, De-Misses Maud Tolleth, Isabella McLord, Kate | troit and Chicago in the west, and Baltimore, New York, Philadelphia and Washington in the east.

Those present at the meeting were: Chris Von Der Ahe, George Shafer and Al Spink, representing St. Louis, and a reputed agent of a company of that city which is supposed to be interested in the new league; H. D. Quinn, formerly of the American association club, and Alderman Havenor, representing Milwaukee; A. C. Anson and his son-in-law, W. H. Clough, representing Chicago; Assemblyman Buckley, representing New York; Frank Hough, sporting editor of the Philadelphia Inquirer, representing Philadelphia; M. Scanlan, representing Washington. The names of the representatives of Detroit and Baltimore were not given out, but they are supposed to be connected with the National league clubs. Tom Loftus of the Grand Rapids team of the Western fague was in consultation with the new league representatives during the day, but was not present at the meeting. "Ted" home Tuesday from a month's visit with Sullivan, the veteran base ball manager, was also present at the meeting.

A. C. Anson was offered the presidency of the new league, but he refused to accept at present, and H. D. Quinn of Milwaukee was elected temporary president. Other temporary officers were elected as follows: Vice president, M. B. Scanfan; treasurer, George Schafer; secretary, Frank Hough; directors, Buckley and C. S. Havenor,

The platform of the new league was announced as follows: "Honest competition, no syndicate base ball, no reserve rule, to respect all contracts and popularize the game.'

It was said that President Johnson of the Western lague had been invited, but he did not meet any of the promoters during the day. He strongly disavowed any connection with the league and asserted that his own league kept him busy. The Detroit and Baltimore representatives

Board of Supervisors yesterday decided not kept in the background and were not presto admit any evidence in regard to assess- ent at the regular meeting. delegates reached the city. It is said to be Von Der Ahe's produc occasioned no discussion, but was unanimously adopted.

By abolishing the reserve rule, the new league thinks it will get a hold on the best base ball talent in the country and by catering to the public with lower prices it is certain to get the masses. The promoters also argue that the evils engendered by forcing upon the public syndicate ball are too patent to be overlooked.

The advent of Anson into the councils of the new league means that Chicago will have two base ball teams should the new league be a reality. It is claimed that grounds have already been secured on the South Side and that work will begin on the grandstand French newspaper circles, just as similar just as soon as permanent officers are English and American achievements have elected. Most of the others making up the per-

sonnel of the new league are old-timers in base ball. H. D. Quinn was president of the old American association club in Milwaukee and owns the old ball grounds. Havenor is a member of the Milwaukes board of aldermen. Schafer, Von Der Ahe and Spink were connected with the old St. Louis Browns. Buckley is a member of the New York association, and Scanlon was the president of the Washington Union association base ball team.

High School Nine Wins. FREMONT, Neb., Sept. 17.—(Special.)— The Fremont High school eleven played their first foot ball game of the season to-

day with a picked team of men who had played ball in college, and beat them 6 to 5. Neither side scored in the first half, though the ball was most of the time close around the college men's goal, having been brought there on a line end run by Havens. In the second half Winterstein scored a touchdown for the College Men, but they falled on try for goal. Two minutes before the time was up Havens of the High school got the ball near the center of the field and made the long run behind the goal for a touchdown. Andrews sent it salling between the posts just as the referees whis le blew. In bucking the line the College Men were too heavy for the High school boys.

The latter did some good work tacking and in running the ends.

Andrews Breaks Record.

ATLANTIC CITY, N. J., Sept. 17.—Everett Andrews of this city distinguished himself today by breaking the national standard 100-mile road bleyele record, the standard fifty-mile state record and also the state 100-mile record. Andrews lowered the national standard 100-mile record by three minutes. It was formerly held by Mack of New York, who made it in four hours and forty-four minutes. The standard state record for fifty miles, which was held by Evans of New Brunswick, was smashed by eleven minutes and the state record for 100 miles he broke by twenty minutes, making the run in four hours and nineteen minutes. Andrews was paced by two tandems and three quads.

Shorten Racing Season.

CHICAGO, Sept. 17.—Turfmen interested in southern tracks are said to have a plan to shorten the length of the racing season in Chicago when the American Turf congress holds its annual sessions. Several members of the congress would be pleased to have racing begin later in Chicago and close carlier. They figure it would give them a chance to keep the good horses at their tracks, both in the spring and fall. If their calculations go through Chicago tracks will not open before June 1 and will close about October 15. The Chicago managers think they can forestall any such action. Shorten Racing Season.

FAMOUS NEWSPAPER SCOOPS.

Secret Tips, but Sometimes Their Sources Are Discovered. One of the most potent factors in bringing about the retrial of Captain Dreyfus at Rennes was the starting publication of all the evidence given before the cour de cassation by Le Figaro, According to newspaper parlance, this was a "ecoop" of the first magnitude, and well worth the perfunctory fine which was levied upon the publishers of the Figure for their so-called indiscrimination. How the news leaked out in this case, says Collier's Weekly, has not as yet been divulged. Sooner or later the secret is bound to become known within come the common property of the editorial profession. One of the most famous English "scoops" is that which is supposed to have furnished George Meredith with the plot for his "Diana of the Crossways." In 1845, when all the agitation was going on over the corn laws, Sir Robert Peel, then prime minister, declared that he would stand fast by them. Yet at the beginning of December of that year the Times created a sensation by declaring that the government was about to bring in a bill for their repeal. Everybody was astounded, and the feeling generally was that the statement was not true, and that the Times had been "had." Yet the accuracy of the report was very soon established, and then the question arose as to how the Times had found
